

RED LIGHT ENFORCEMENT

GlobalRed

Red light running is the nations most serious and top intersection safety issues. According to the Transport Canada's Motor Vehicle Safety initiative, aggressive driving is a major factor of drivers that run red lights. 14 cities in Canada that implemented Red light cameras have found a decline in fatalities by 35%.

GlobalRed is our program that will help you effectively monitor high collision intersections and produce a drop in fatalities and serious injuries. Fixed and mobile high definition still and video cameras are integrated into our software producing an intelligent preventative solution.

GlobalRed Advantage

- No upfront costs
- Compliant in all jurisdictions*
- Calibrated continuously for the most accurate reporting
- Full court support
- Complete processing department in-house
- High resolution image recording uploaded daily for viewing

*certain jurisdictions may change regulations and required updating
